# JORDAN CARRIERS

## RIBBON CUTTING NEWS RELEASE

### Jordan Information

Jordan Carriers and Jordan Logistics are based in Natchez, MS. The Natchez headquarters employs approximately 150 residents of the Miss-Lou area. We also have staff in Florida, Georgia, Washington, Tennessee, Texas, Louisiana, Arkansas, and Indiana.

Every month we bring in 80 drivers to our Natchez campus for Driver Orientation Training. They are housed in local hotels, rented vehicles locally, fed by local restaurants, and undergo physicals by local medical offices.

Our Jordan Carriers Wind Division, located in Pineville, LA, is dedicated to ensuring the components of windmills are transported to wind farms all over the country. Construction is nearing completion of a specialized training yard for heavy haul driver training of oversized loads.

A newly constructed company headquarters was recently completed on Highway 61 South in Natchez.

Founded in Natchez in 1992, Jordan Carriers is proud to be a Natchez-based, family owned and operated business. We take pride in supporting local businesses, organizations, charities, sports teams, and educational endeavors. We look forward to being a part of the Miss-Lou's continued growth.

### New Corporate Headquarters

Over 27,000 sqft of office space including state of the art conference rooms, breakrooms, and an outside courtyard dining area for employees.

A training classroom on the second floor accommodates all on site staff members for continuing education.

Local architects and interior designers were hired for the entire design of the building.

Local artists are showcased throughout the building.
